Writing Handbook

Vision for Writing

Core concepts in writing are sequenced to ensure regular repetition within and across year groups and themes and key stages, thus enabling pupils to 'know more and remember more' and develop a deeper understanding of each subject in the context of the world around them.

Writing Principles

1. Understand the role reading plays in developing writers and the value of being immersed in high quality literature
2. Ensure children have experience of a breadth of texts including those that are visual and digital
3. Provide a range of meaningful opportunities to write for real purposes and audiences and to respond to writing as a reader
4. Develop an understanding of the craft of writing by engaging meaningfully with professional authors and their processes
5. Understand and model the craft and process of writing authentically
6. Support children to identify as writers and to develop their own authentic voice
7. Give children time and space to develop their own ideas in writing
8. Use creative teaching approaches that build imagination and give time for oral rehearsal
9. Ensure the teaching of phonics, grammar and spelling is embedded in context
10. Celebrate writing through authentic publication and presentation across platforms

Implementation

In KS1, children imitate the key language they need for a particular topic orally.

Children use fun, engaging activities to help them rehearse the tune of the language they need, followed by shared writing to show them how to craft their genre. We build our writing on Five stages-Showing, doing, providing, extending, creating. We immerse children in rich texts linked to their wider curriculum learning where we explore their genre and purpose and then move onto planning their writing. Children are expected to identify linguistic and structural features and can apply their knowledge from reading, to their writing. The process of proofreading and editing is also built upon through KS2. This may be done independently, with a partner, or modelled by the class teacher so that expectations are made clear. We also seek this opportunity to highlight age related expectations, so that children understand what is new and what is different in their year group.

Impact

Children are able to see themselves as authors and view their books with great pride. Every half-term, teachers will assess a piece of writing against the age-related expectations.

This will then be moderated to ensure parity and plan for next steps in writing. When children move through year groups, feedback is provided to their new class teachers on the class' writing skills, as well as their strengths and weaknesses. This ensures clear communication and planned next-steps so that progression is ensured.

Progression in Writing

The National Curriculum aims and objectives are used to inform planning, teaching and assessment. Transcription and Composition are taught across each year group through clear sequence and progression. Each year group a range of genres of text are covered to offer a broad curriculum to all learners. Where necessary, writing units are matched to current topics using a read to write model. Through immersion in a text, children are able to identify features of a text and 'magpie' vocabulary and grammatical effects for their own writing.

Inclusion

To enable all children, classrooms are dyslexia friendly and language rich. Kagan strategies are used within each lesson to develop metacognition and aid long term memory of skills and knowledge.

Those who are identified as needing additional support in writing, to keep up, provision is quickly put in place to support in class before wave 2 interventions are introduced including spelling cued,

Children requiring additional support, including SEND, have access to a range of supporting aids such as reading scanner pens, immersive reader texts and access to computer programmes to write up longer pieces of writing, to remove barriers to their learning.

Assessment

Every half-term, teachers will assess a piece of writing against the age-related expectations. This will then be moderated to ensure parity and plan for next steps in writing. When children move through year groups, feedback is provided to their new class teachers on the class' writing skills, as well as their strengths and weaknesses. This ensures clear communication and planned next-steps so that progression is ensured. All data is monitored closely by the English subject lead and data lead and discussed with all of the Senior Management Team.

At Guardian Angels, we believe in continually reviewing our professional practice to ensure our children are provided with the knowledge and skills to become enthused authors. Our children are empowered through purposeful writing so that they understand just how they make stir change or evoke emotions from their reader.
